INTRODUCTION

The purpose of this chapter is to explain the procedures for billing the Virginia Medicaid Program (Medicaid) for covered services provided to Medicaid-eligible individuals. The Department of Medical Assistance Services (DMAS) is the agency that oversees Medicaid in the Commonwealth of Virginia.

This chapter will address:

- **General Information** - This section contains information about DMAS' claims systems and requirements, including timely filing and the use of appropriate claims forms.
- **Billing Procedures** – This section provides instructions on completing claim forms, submitting adjustment requests, and additional payment services.

This manual chapter primarily relates to fee-for-service billing. For more information about reimbursement and claims processing instructions for an individual in a managed care organization, please contact the managed care organization (MCO) directly. Providers must be credentialed with a member's MCO in order to bill for services provided to that member.

Providers under contract with the Program of All-Inclusive Care (PACE) should contact the PACE Program for billing information. For additional details see <https://www.dmas.virginia.gov/for-providers/long-term-care/programs-and-initiatives/program-of-all-inclusive-care/>.

FEE SCHEDULE

A fee schedule is a complete listing of fees used by Medicaid fee-for-service to pay providers for most services to include professional claims. DMAS develops the fee schedule and can be found on the DMAS website, <https://www.dmas.virginia.gov/for-providers/rates-and-rate-setting/>

Managed Care Organizations must reimburse practitioners for all services at rates no less than the Medicaid Fee-for-Service fee schedule. The MCOs may reimburse providers based on an alternative payment methodology or value-based payment if mutually agreed upon by the provider and the MCOs. The fee schedule can be viewed at: <https://www.dmas.virginia.gov/for-providers/rates-and-rate-setting/procedure-fee-files-cpt-codes/>

ELECTRONIC SUBMISSION OF CLAIMS

Electronic billing using Electronic Data Interchange (EDI) is an efficient way to submit Medicaid claims. Providers use EDI software that enables the automated transfer of data

in a specific format following specific data content rules directly to DMAS. For more information, go to <https://vamedicaid.dmas.virginia.gov/edi>.

The Virginia Medicaid Enterprise System (MES) is HIPAA-compliant and, therefore, supports all electronic filing requirements and code sets mandated by the legislation.

MES will accommodate the following Electronic Data Interchange (EDI) transactions according to the specifications published in the ASC X12 Implementation Guides version 5010.

- 837P for submission of professional claims
- 837I for submission of institutional claims
- 837D for submission of dental claims
- 276 & 277 for claims status inquiry and response
- 835 for remittance advice information for adjudicated (paid and denied)
- 270 & 271 for eligibility inquiry and response

Although not mandated by HIPAA, DMAS has opted to produce an unsolicited 277 transaction to report information on pending claims.

If you are interested in receiving more information about utilizing any of the above electronic transactions, your office or vendor can obtain the necessary information at our fiscal agent's website: <https://vamedicaid.dmas.virginia.gov/edi#gsc.tab=0>

The mailing address, phone number and fax number for the EDI program are:

Richmond, Virginia 23260-6228

Phone: (866) 352-0766

Fax number: (888) 335-8460

The email for technical/web support for EDI is MESEDISupport@dmas.virginia.gov.

DIRECT DATA ENTRY (DDE)

Providers may submit Professional (CMS-1500), Institutional (UB-04) and Medicare Crossover claims using Direct Data Entry (DDE). Providers also may make adjustments or void previously submitted claims through DDE. DDE is provided at no cost to providers. Paper claims submissions are not allowed except when requested by DMAS.

Providers must use the Medicaid Enterprise System (MES) Provider Portal to complete DDE. The MES Provider Portal can be accessed at

<https://vamedicaid.dmas.virginia.gov/provider>.

MEDICAID PROVIDER TAXONOMY

Providers must include a valid provider taxonomy code as part of the claims submission process for all Medicaid-covered services. Providers must select at least one taxonomy code based on the service or services rendered. Providers may validate the taxonomy that is associated with their National Provider Identifier (NPI) and practice location through the MES Provider Portal.

For information on taxonomy codes, please go to:

<https://vamedicaid.dmas.virginia.gov/provider/downloads>

TIMELY FILING

Federal regulations [42 CFR § 447.45(d)] require the initial submission of all Medicaid claims (including accident cases) within 12 months from the date of service. Only claims that are submitted within 12 months from the date of service are eligible for Federal financial participation. To request a waiver of timely filing requirements, providers billing electronically must submit a Claim Attachment Form (DMAS-3) with the appropriate attachments.

DMAS is not authorized to make payment on claims that are submitted late, except under the following conditions:

Retroactive Eligibility - Medicaid eligibility can begin as early as the first day of the third month prior to the month in which the individual makes application for benefits. All eligibility requirements must be met within that period for retroactive eligibility to be granted. In these instances, unpaid bills for that period may be submitted to DMAS as Medicaid claims.

Delayed Eligibility - Initial denials of an individual's Medicaid eligibility application may be overturned or other actions may cause an eligibility determination to be delayed. DMAS may make payments for dates of service more than 12 months in the past when the claims are for an individual whose determination of eligibility was delayed.

It is the provider's obligation to verify the individual's Medicaid eligibility. The individual's local department of social services will notify providers who have rendered care during a period of delayed eligibility. The notification will indicate notification of the delayed eligibility and include the Medicaid ID number, and the time span for which eligibility has been granted. The provider must submit a claim within 12 months from the date of the notification of the delayed eligibility. A copy of the "signed and dated" letter from the local department of social services indicating the delayed claim information must be attached

to the claim.

Denied claims - Denied claims must be submitted and processed on or before 13 months from the date of the initial claim denial where the initial claim was filed according to the timely filing requirements. The procedures for resubmission are:

- Complete invoice as explained in this billing chapter.
- Attach written documentation to justify/verify the explanation. If billing electronically and waiver of timely filing is being requested, submit the claim with the appropriate attachments. (The DMAS-3 form is to be used by electronic billers for attachments. See exhibits).

Accident Cases - The provider may either bill DMAS or wait for a settlement from the responsible liable third party in accident cases. However, all claims for services in accident cases must be billed to DMAS within 12 months from the date of the service. If the provider waits for the settlement before billing DMAS and the wait extends beyond 12 months from the date of the service, DMAS shall make no reimbursement.

Other Primary Insurance - The provider must bill other insurance as primary. However, all claims for services **must be billed to DMAS within 12 months from the date of the service**. If the provider waits for payment before billing DMAS and the wait extends beyond 12 months from the date of the service, DMAS will make no reimbursements. If payment is made from the primary insurance carrier after a payment from DMAS has been made, an adjustment or void should be filed at that time.

Other Insurance - The member can keep private health insurance and still be covered by Medicaid. The other insurance plan pays first. Having other health insurance does not change the co-payment amount that providers may collect from a Medicaid member. For members with a Medicare supplemental policy, the policy can be suspended with Medicaid coverage for up to 24 months while the member has Medicaid without penalty from their insurance company. The member must notify the insurance company within 90 days of the end of Medicaid coverage to reinstate the supplemental insurance.

INVOICE PROCESSING

The Medicaid invoice processing system utilizes a sophisticated electronic system to process Medicaid claims. Once a claim has been received, imaged, assigned a cross-reference number, and entered into the system, it is placed in one of the following categories:

Remittance Voucher

- **Approved** - Payment is approved or Pended. Pended claims are placed in a pended status for manual adjudication (the provider must not resubmit).

- **Denied** - Payment cannot be approved because of the reason stated on the remittance voucher.
- **Pend** – Payment is pended for claim to be manually reviewed by DMAS staff or waiting on further information from provider.

No Response - If one of the above responses has not been received within 30 days, the provider should assume non-delivery and rebill using a new invoice form. **The** provider's failure to follow up on these situations does not warrant individual or additional consideration for late billing.

AUTOMATED CROSSOVER CLAIMS PROCESSING

Most claims for dually eligible members are automatically submitted to DMAS for processing. The Medicare claims processor will submit claims based on electronic information exchanges between these entities and DMAS. As a result of this automatic process, the claims are often referred to as “crossovers” since the claims are automatically crossed over from Medicare to the DMAS Medicaid system for processing.

CLAIMCHECK/CORRECT CODING INITIATIVE (CCI)

DMAS utilizes the Medicaid-specific National Correct Coding Initiative (NCCI) edits through ClaimCheck/CCI. NCCI is part of the daily claims adjudication cycle on concurrent basis. The current claim will be processed to edit current and historic claims. Any adjustments or denial of payments from the current or historic claim(s) will be done during the daily adjudication cycle and reported on the providers weekly remittance cycle. All ClaimCheck/CCI edits are based on the following global claim factors: same member, same provider, and same date of service or date of service is within established pre- or post-operative period.

Procedure-To-Procedure (PTP) Edits:

CMS has combined the Medicare Incidental and Mutually Exclusive edits into a new PTP category. The PTP edits define pairs of CPT/HCPCS codes that should not be reported together. The PTP codes utilize a column one listing of codes to a column two listing of codes. In the event a column one code is billed with a column two code, the column one code will pay, the column two code will deny. The only exception to the PTP is the application of an accepted Medicaid NCCI modifier. **Note:** Prior to this implementation, DMAS modified the CCI Mutually Exclusive edit to pay the procedure with the higher billed charge. This is no longer occurring, since CMS has indicated that the code in column one is to be paid regardless of charge.

Medically-Unlikely Edits (MUE):

DMAS implemented the Medicaid NCCI MUE edits. These edits define for each

CPT/HCPSC code the maximum units of service that a provider would report under most circumstances for a single member on a single date of service and by same servicing provider. The MUEs apply to the number of units allowed for a specific procedure code, per day. If the claim units billed exceed the per day allowed, the claim will deny. With the implementation of the MUE edits, providers must bill any bilateral procedure correctly. The claim should be billed with one unit and the 50 modifier. The use of two units will subject the claim to the MUE, resulting in a denial of the claim.

Modifiers:

DMAS only allows the Medicaid NCCI associated modifiers as identified by CMS for the Medicaid NCCI. The modifier indicator currently applies to the PTP edits. The application of this modifier is determined by the modifier indicator of "1" or "0" in the listing of the NCCI PTP column code. The MUE edits do not contain a modifier indicator table on the edit table. Per CMS, modifiers may only be applied if the clinical circumstances justify the use of the modifier. A provider cannot use the modifier just to bypass the edit. The recipient's medical record must contain documentation to support the use of the modifier by clearly identifying the significant, identifiable service that allowed the use of the modifier. DMAS or its agent will monitor and audit the use of these modifiers to assure compliance. These audits may result in recovery of overpayment(s) if the medical record does not appropriately demonstrate the use of the modifiers.

Modifiers that may be used under appropriate clinical circumstances to bypass an NCCI PTP edit include: E1 –E4, FA, F1 – F9, TA T1 – T9, LT, RT, LC, LD, RC, LM, RI, 24, 25, 57, 58, 78, 79, 27, 59, 91. Modifiers 22, 76 and 77 are not Medicaid PTP NCCI approved modifiers. If these modifiers are used, they will not bypass the Medicaid PTP NCCI edits.

Reconsideration

Providers that disagree with the action taken by a NCCI or ClaimCheck edit may request a reconsideration of the process via email (claimcheck@dmass.virginia.gov) or by submitting a request to the following mailing address:

Payment Processing Unit, NCCI/ClaimCheck
Division of Program Operations
Department of Medical Assistance Services
600 East Broad Street, Suite 1300
Richmond, Virginia 23219

There is a 30 calendar-day time limit from the date of the denial letter or the date of the remittance advice containing the denial for requesting reconsideration. A review of additional documentation may sustain the original determination or result in an approval or denial of additional day(s). Requests received without additional documentation or after the 30 calendar-day limit will not be considered.

NEGATIVE BALANCE INFORMATION – Fee for Service

Negative balances occur when one or more of the following situations have occurred:

- Provider submitted adjustment/void request
- DMAS completed adjustment/void
- Audits
- Cost settlements
- Repayment of advance payments made to the provider by DMAS

In the remittance process the amount of the negative balance may be either off set by the total of the approved claims for payment leaving a reduced payment amount or may result in a negative balance to be carried forward. The remittance will show the amount as, “less the negative balance” and it may also show “the negative balance to be carried forward”.

The negative balance will appear on subsequent remittances until it is satisfied. An example is if the claims processed during the week resulted in approved allowances of \$1000.00 and the provider has a negative balance of \$2000.00 a check will not be issued, and the remaining \$1000.00 outstanding to DMAS will carry forward to the next remittance.

INSTRUCTIONS FOR COMPLETING THE PAPER CMS-1500 (02-12) FORM FOR MEDICARE AND MEDICARE ADVANTAGE PLAN DEDUCTIBLE, COINSURANCE AND COPAY PAYMENTS FOR PROFESSIONAL SERVICES

The Direct Data Entry (DDE) Crossover Part B claim form can be located through the MES Provider Portal. Please note that providers are encouraged to use DDE for submission of claims that cannot be submitted electronically to DMAS. Registration with MES is required to access and use DDE within the MES Provider Portal.

Once logged on to MES, choose Provider Resources and then select Claims. Providers have the ability to create a new initial claim, as well as a claim adjustment or a void through the DDE process. The status of the claim(s) submitted can be checked the next business day if claims were submitted by 5pm. DDE is provided at no cost to providers. Paper claim submissions should only be submitted when requested specifically by DMAS.

DUAL ENROLLMENT IN MEDICARE AND MEDICAID

Providers who are participating with Medicare must submit claims to Medicare for substance use disorder (SUD) treatment services that are covered by Medicare for dually enrolled members. Medicare is the primary payer for Medicare covered services.

Medicaid reimburses providers for the coinsurance, copays and deductible amounts on Medicare claims for Medicaid members who are dually eligible for Medicare and Medicaid. However, the amount paid by Medicaid in combination with the Medicare payment will not exceed the amount Medicaid would pay for the service if it were billed solely to Medicaid.

PARTIAL UNITS

Providers shall not round up for partial units of service. Providers may accumulate partial units throughout the week for allowable span billing, however, shall bill only whole units. Time billed shall match the documented time rendering the service in the member's clinical record and in accordance with DMAS requirements. Providers should refer to the MCO or the FFS contractor for information on services that allow span billing.

ICD-10

In accordance with CMS requirements, DMAS and its contractors exclusively use ICD-10 CM diagnostic coding structure for electronic diagnosis and billing purposes. ICD-10 CM is the only recognized HIPAA compliant coding system; therefore, it will be the only one accepted on electronic forms and transactions for Medicaid claims. In addition, in Section I of the DSM-5 titled 'Use of the Manual' and in the subsection called the 'Coding and Reporting Procedure', the paragraph informs clinicians about this transition to ICD-10. To assist providers, the corresponding ICD-10 diagnosis codes are provided alongside the listed DSM-5 diagnosis codes.

OUTPATIENT TREATMENT

Psychotherapy services of licensed clinical psychologists shall be reimbursed at 90% of the reimbursement rate for psychiatrists. Psychotherapy services provided by independently enrolled licensed clinical social workers, licensed professional counselors, licensed marriage and family therapists, licensed psychiatric nurse practitioners, licensed substance abuse treatment practitioners, or licensed clinical nurse specialists-psychiatric shall be reimbursed at 75% of the reimbursement rate for licensed clinical psychologists.

HOSPITAL-BASED PHYSICIAN BILLING

Hospital-based physicians must submit separate billings to DMAS for their professional fees (components) utilizing the CMS-1500 (02-12) billing form. Combined billing of the professional fees on the hospital's invoice (UB-04 CMS-1450) is not allowed for ARTS. Please refer to Chapter V of the Physicians Manual. Physicians should refer to the MCOs, and the FFS contractor for specific billing requirements per their respective contract.

PSYCHITRIC UNITS AND FREESTANDING ACUTE CARE INPATIENT PSYCHIATRIC HOSPITALS – ASAM LEVEL 3.7 and 4.0

Medicaid provides an all-inclusive rate to psychiatric units and freestanding inpatient psychiatric hospitals. The inpatient hospital must provide all services related to the care for the Medicaid enrolled individual for the per-diem reimbursement rate throughout the

period of hospitalization. This rate is an all-inclusive rate that includes all of the services that are rendered to the individual. The psychiatric and professional components of the care may be billed separately by the professional who is an enrolled Medicaid provider.

Providers under contract with the MCOs, or the FFS contractor should consult with the MCOs, and the FFS contractor for specific questions regarding the all-inclusive rate as well as the requirements for billing the psychiatric and professional components.

ARTS RESIDENTIAL TREATMENT SERVICES – ASAM LEVELS 3.7/3.5/3.3/3.1

Medicaid provides a per diem payment for residential treatment services. The per diem rate is based on a pro-forma cost report as defined in Chapter II of this manual. The rate includes minor ancillaries, daily supervision and non-billable, required therapeutic services, and may also include pharmacy services. The professional, pharmacy, laboratory, occupational therapy (OT), physical therapy (PT) and speech-language pathology (SLP) services may all be billed separately by a qualified, enrolled Medicaid provider.

The MCOs, and the FFS contractor should be contacted regarding claims/billing issues or questions for ASAM residential treatment services as well as the requirements for billing the psychiatric and professional components.

The following Medicaid covered services are included in the facility per diem reimbursement for ARTS Residential Treatment Services and not reimbursed separate from the per diem – ASAM Levels 3.7/3.5/3.3/3.1. DMAS has noted exceptions to this rule based on the level of care and type of service below:

- Room and Board in ASAM levels 3.3, 3.5, and 3.7. (Room and board can be reimbursed separately from or in addition to the per diem in ASAM level 3.1)
- Daily Supervision in ASAM levels 3.3, 3.5, and 3.7. (Daily supervision can be reimbursed separately from or in addition to the per diem in ASAM level 3.1)
- Treatment Planning in ASAM levels 3.1, 3.3, 3.5, and 3.7.
- Skills Restoration and ADL Restoration Interventions in ASAM levels 3.1, 3.3, 3.5, and 3.7.
- Care Coordination in ASAM levels 3.1, 3.3, 3.5, and 3.7.
- Crisis Response in ASAM levels 3.1, 3.3, 3.5, and 3.7.

See the list below for services that may be billed separately from the ASAM Level 3.7/3.5/3.3/3.1 per diem. No other services may be billed for members residing in a residential treatment setting unless approved by DMAS or its contractor as a medically necessary service.

licensed or certified health professionals;

More information may be located: <https://www.dmas.virginia.gov/for-providers/transportation/>.

Services Provided Under Arrangement and Early Periodic Screening, Diagnosis and Treatment in a Psychiatric Residential Treatment Facility

The 21st Century Cures Act (Cures Act) requires that states must make available any services coverable under 1905(a) of the Act and the Early Periodic Screening, Diagnosis and Treatment (EPSDT) benefit for youth residing in a Psychiatric Residential Treatment Facility (PRTF) and who are determined to need the service in order to correct or ameliorate health conditions, regardless of whether such services are identified in the youth's plan of care. These services may be provided by the PRTF, under arrangement with a qualified non-facility provider, and/or by a qualified provider in the community not affiliated with or under arrangement with the facility.

The PRTF benefit is defined in part to include a needs assessment and the development of a plan of care specific to meet each child's medical, psychological, social, behavioral and developmental needs. In some cases, a PRTF may choose to obtain services reflected in the plan of care under arrangement with qualified non-facility providers. This shall require such services to be components of the PRTF benefit when included in the youth's plan of care and furnished by a qualified provider that has entered into a contract with the inpatient psychiatric facility to furnish the services to its inpatients. For services provided under arrangement, the PRTF must oversee the provision of all services, must maintain all medical records of care furnished to the individual, and must ensure that all services are furnished under the direction of a physician.

Services provided under arrangement shall be documented by a written referral from the

PRTF. For purpose of pharmacy services, a prescription ordered by an employee or contractor of the facility who is licensed to prescribe drugs shall be considered the referral.

As the Cures Act requires that youth in PRTFs are guaranteed full access to the full range of EPSDT services, a plan of care is not necessary to authorize any other medically necessary services and Medicaid services may be provided by community practitioners not affiliated with the facility.
