INTRODUCTION

The purpose of this chapter is to explain the procedures for billing the Virginia Medicaid Program (Medicaid) for covered services provided to Medicaid-eligible individuals. The Department of Medical Assistance Services (DMAS) is the agency that oversees Medicaid in the Commonwealth of Virginia.

This chapter will address:

- **General Information** - This section contains information about DMAS' claims systems and requirements, including timely filing and the use of appropriate claims forms.
- **Billing Procedures** – This section provides instructions on completing claim forms, submitting adjustment requests, and additional payment services.

This manual chapter primarily relates to fee-for-service billing. For more information about reimbursement and claims processing instructions for an individual in a managed care organization, please contact the managed care organization (MCO) directly. Providers must be credentialed with a member's MCO in order to bill for services provided to that member.

Providers under contract with the Program of All-Inclusive Care (PACE) should contact the PACE Program for billing information. For additional details see <https://www.dmas.virginia.gov/for-providers/long-term-care/programs-and-initiatives/program-of-all-inclusive-care/>.

FEE SCHEDULE

A fee schedule is a complete listing of fees used by Medicaid fee-for-service to pay providers for most services to include professional claims. DMAS develops the fee schedule and can be found on the DMAS website, <https://www.dmas.virginia.gov/for-providers/rates-and-rate-setting/>

Managed Care Organizations must reimburse practitioners for all services at rates no less than the Medicaid Fee-for-Service fee schedule. The MCOs may reimburse providers based on an alternative payment methodology or value-based payment if mutually agreed upon by the provider and the MCOs. The fee schedule can be viewed at: <https://www.dmas.virginia.gov/for-providers/rates-and-rate-setting/procedure-fee-files-cpt-codes/>

ELECTRONIC SUBMISSION OF CLAIMS

Electronic billing using Electronic Data Interchange (EDI) is an efficient way to submit Medicaid claims. Providers use EDI software that enables the automated transfer of data in a specific format following specific data content rules directly to DMAS. For more information, go to <https://vamedicaid.dmas.virginia.gov/edi>.

The Virginia Medicaid Enterprise System (MES) is HIPAA-compliant and, therefore, supports all electronic filing requirements and code sets mandated by the legislation.

MES will accommodate the following Electronic Data Interchange (EDI) transactions according to the specifications published in the ASC X12 Implementation Guides version 5010.

- 837P for submission of professional claims
- 837I for submission of institutional claims
- 837D for submission of dental claims
- 276 & 277 for claims status inquiry and response
- 835 for remittance advice information for adjudicated (paid and denied)
- 270 & 271 for eligibility inquiry and response

Although not mandated by HIPAA, DMAS has opted to produce an unsolicited 277 transaction to report information on pending claims.

If you are interested in receiving more information about utilizing any of the above electronic transactions, your office or vendor can obtain the necessary information at our fiscal agent's website: <https://vamedicaid.dmas.virginia.gov/edi#gsc.tab=0>

The mailing address, phone number and fax number for the EDI program are:

Virginia Medicaid Fiscal Agent

Richmond, Virginia 23260-6228

Phone: (866) 352-0766
Fax number: (888) 335-8460

The email for technical/web support for EDI is MESEDISupport@dmas.virginia.gov.

DIRECT DATA ENTRY (DDE)

Providers may submit Professional (CMS-1500), Institutional (UB-04) and Medicare

Crossover claims using Direct Data Entry (DDE). Providers also may make adjustments or void previously submitted claims through DDE. DDE is provided at no cost to providers. Paper claims submissions are not allowed except when requested by DMAS.

Providers must use the Medicaid Enterprise System (MES) Provider Portal to complete DDE. The MES Provider Portal can be accessed at <https://vamedicaid.dmas.virginia.gov/provider>.

MEDICAID PROVIDER TAXONOMY

Providers must include a valid provider taxonomy code as part of the claims submission process for all Medicaid-covered services. Providers must select at least one taxonomy code based on the service or services rendered. Providers may validate the taxonomy that is associated with their National Provider Identifier (NPI) and practice location through the MES Provider Portal.

For information on taxonomy codes, please go to:
<https://vamedicaid.dmas.virginia.gov/provider/downloads>

TIMELY FILING

Federal regulations [42 CFR § 447.45(d)] require the initial submission of all Medicaid claims (including accident cases) within 12 months from the date of service. Only claims that are submitted within 12 months from the date of service are eligible for Federal financial participation. To request a waiver of timely filing requirements, providers billing electronically must submit a Claim Attachment Form (DMAS-3) with the appropriate attachments.

DMAS is not authorized to make payment on claims that are submitted late, except under the following conditions:

Retroactive Eligibility - Medicaid eligibility can begin as early as the first day of the third month prior to the month in which the individual makes application for benefits. All eligibility requirements must be met within that period for retroactive eligibility to be granted. In these instances, unpaid bills for that period may be submitted to DMAS as Medicaid claims.

Delayed Eligibility - Initial denials of an individual's Medicaid eligibility application may be overturned or other actions may cause an eligibility determination to be delayed. DMAS may make payments for dates of service more than 12 months in the past when the claims are for an individual whose determination of eligibility was delayed.

It is the provider's obligation to verify the individual's Medicaid eligibility. The individual's local department of social services will notify providers who have rendered care during a period of delayed eligibility. The notification will indicate notification of the delayed eligibility and include the Medicaid ID number, and the time span for which eligibility has been granted. The provider must submit a claim within 12 months from the date of the notification of the delayed eligibility. A copy of the "signed and dated" letter from the local department of social services indicating the delayed claim information must be attached to the claim.

Denied claims - Denied claims must be submitted and processed on or before 13 months from the date of the initial claim denial where the initial claim was filed according to the timely filing requirements. The procedures for resubmission are:

- Complete invoice as explained in this billing chapter.
- Attach written documentation to justify/verify the explanation. If billing electronically and waiver of timely filing is being requested, submit the claim with the appropriate attachments. (The DMAS-3 form is to be used by electronic billers for attachments. See exhibits).

Accident Cases - The provider may either bill DMAS or wait for a settlement from the responsible liable third party in accident cases. However, all claims for services in accident cases must be billed to DMAS within 12 months from the date of the service. If the provider waits for the settlement before billing DMAS and the wait extends beyond 12 months from the date of the service, DMAS shall make no reimbursement.

Other Primary Insurance - The provider must bill other insurance as primary. However, all claims for services **must be billed to DMAS within 12 months from the date of the service**. If the provider waits for payment before billing DMAS and the wait extends beyond 12 months from the date of the service, DMAS will make no reimbursements. If payment is made from the primary insurance carrier after a payment from DMAS has been made, an adjustment or void should be filed at that time.

Other Insurance - The member can keep private health insurance and still be covered by Medicaid. The other insurance plan pays first. Having other health insurance does not change the co-payment amount that providers may collect from a Medicaid member. For members with a Medicare supplemental policy, the policy can be suspended with Medicaid coverage for up to 24 months while the member has Medicaid without penalty from their insurance company. The member must notify the insurance company within 90 days of the end of Medicaid coverage to reinstate the supplemental insurance.

INVOICE PROCESSING

The Medicaid invoice processing system utilizes a sophisticated electronic system to process Medicaid claims. Once a claim has been received, imaged, assigned a cross-reference number, and entered into the system, it is placed in one of the following categories:

Remittance Voucher

- **Approved** - Payment is approved or Pended. Pended claims are placed in a pended status for manual adjudication (the provider must not resubmit).
- **Denied** - Payment cannot be approved because of the reason stated on the remittance voucher.
- **Pend** – Payment is pended for claim to be manually reviewed by DMAS staff or waiting on further information from provider.

No Response - If one of the above responses has not been received within 30 days, the provider should assume non-delivery and rebill using a new invoice form. **The** provider's failure to follow up on these situations does not warrant individual or additional consideration for late billing.

AUTOMATED CROSSOVER CLAIMS PROCESSING

Most claims for dually eligible members are automatically submitted to DMAS for processing. The Medicare claims processor will submit claims based on electronic information exchanges between these entities and DMAS. As a result of this automatic process, the claims are often referred to as “crossovers” since the claims are automatically crossed over from Medicare to the DMAS Medicaid system for processing.

CLAIMCHECK/CORRECT CODING INITIATIVE (CCI)

DMAS utilizes the Medicaid-specific National Correct Coding Initiative (NCCI) edits through ClaimCheck/CCI. NCCI is part of the daily claims adjudication cycle on concurrent basis. The current claim will be processed to edit current and historic claims. Any adjustments or denial of payments from the current or historic claim(s) will be done during the daily adjudication cycle and reported on the providers weekly remittance cycle. All ClaimCheck/CCI edits are based on the following global claim factors: same member, same provider, and same date of service or date of service is within established pre- or post-operative period.

Procedure-To-Procedure (PTP) Edits:

CMS has combined the Medicare Incidental and Mutually Exclusive edits into a new PTP category. The PTP edits define pairs of CPT/HCPCS codes that should not be reported

together. The PTP codes utilize a column one listing of codes to a column two listing of codes. In the event a column one code is billed with a column two code, the column one code will pay, the column two code will deny. The only exception to the PTP is the application of an accepted Medicaid NCCI modifier. **Note:** Prior to this implementation, DMAS modified the CCI Mutually Exclusive edit to pay the procedure with the higher billed charge. This is no longer occurring, since CMS has indicated that the code in column one is to be paid regardless of charge.

Medically-Unlikely Edits (MUE):

DMAS implemented the Medicaid NCCI MUE edits. These edits define for each CPT/HCPCS code the maximum units of service that a provider would report under most circumstances for a single member on a single date of service and by same servicing provider. The MUEs apply to the number of units allowed for a specific procedure code, per day. If the claim units billed exceed the per day allowed, the claim will deny. With the implementation of the MUE edits, providers must bill any bilateral procedure correctly. The claim should be billed with one unit and the 50 modifier. The use of two units will subject the claim to the MUE, resulting in a denial of the claim.

Modifiers:

DMAS only allows the Medicaid NCCI associated modifiers as identified by CMS for the Medicaid NCCI. The modifier indicator currently applies to the PTP edits. The application of this modifier is determined by the modifier indicator of “1” or “0” in the listing of the NCCI PTP column code. The MUE edits do not contain a modifier indicator table on the edit table. Per CMS, modifiers may only be applied if the clinical circumstances justify the use of the modifier. A provider cannot use the modifier just to bypass the edit. The recipient’s medical record must contain documentation to support the use of the modifier by clearly identifying the significant, identifiable service that allowed the use of the modifier. DMAS or its agent will monitor and audit the use of these modifiers to assure compliance. These audits may result in recovery of overpayment(s) if the medical record does not appropriately demonstrate the use of the modifiers.

Modifiers that may be used under appropriate clinical circumstances to bypass an NCCI PTP edit include: E1 –E4, FA, F1 – F9, TA T1 – T9, LT, RT, LC, LD, RC, LM, RI, 24, 25, 57, 58, 78, 79, 27, 59, 91. Modifiers 22, 76 and 77 are not Medicaid PTP NCCI approved modifiers. If these modifiers are used, they will not bypass the Medicaid PTP NCCI edits.

Reconsideration

Providers that disagree with the action taken by a NCCI or ClaimCheck edit may request a reconsideration of the process via email (claimcheck@dmass.virginia.gov) or by submitting a request to the following mailing address:

Payment Processing Unit, NCCI/ClaimCheck
Division of Program Operations

Department of Medical Assistance Services
600 East Broad Street, Suite 1300
Richmond, Virginia 23219

There is a 30 calendar-day time limit from the date of the denial letter or the date of the remittance advice containing the denial for requesting reconsideration. A review of additional documentation may sustain the original determination or result in an approval or denial of additional day(s). Requests received without additional documentation or after the 30 calendar-day limit will not be considered.

NEGATIVE BALANCE INFORMATION – Fee for Service

Negative balances occur when one or more of the following situations have occurred:

- Provider submitted adjustment/void request
- DMAS completed adjustment/void
- Audits
- Cost settlements
- Repayment of advance payments made to the provider by DMAS

In the remittance process the amount of the negative balance may be either off set by the total of the approved claims for payment leaving a reduced payment amount or may result in a negative balance to be carried forward. The remittance will show the amount as, "less the negative balance" and it may also show "the negative balance to be carried forward".

The negative balance will appear on subsequent remittances until it is satisfied. An example is if the claims processed during the week resulted in approved allowances of \$1000.00 and the provider has a negative balance of \$2000.00 a check will not be issued, and the remaining \$1000.00 outstanding to DMAS will carry forward to the next remittance.

INSTRUCTIONS FOR COMPLETING THE PAPER CMS-1500 (02-12) FORM FOR MEDICARE AND MEDICARE ADVANTAGE PLAN DEDUCTIBLE, COINSURANCE AND COPAY PAYMENTS FOR PROFESSIONAL SERVICES

The Direct Data Entry (DDE) Crossover Part B claim form can be located through the MES Provider Portal. Please note that providers are encouraged to use DDE for submission of claims that cannot be submitted electronically to DMAS. Registration with MES is required to access and use DDE within the MES Provider Portal.

Once logged on to MES, choose Provider Resources and then select Claims. Providers have the ability to create a new initial claim, as well as a claim adjustment or a void through the DDE process. The status of the claim(s) submitted can be checked the next business day if claims were submitted by 5pm. DDE is provided at no cost to providers. Paper claim submissions should only be submitted when requested specifically by DMAS.

Purpose: A method of billing Medicare's deductible, coinsurance and copay for professional Providers typically use Direct Data Entry (DDE), however, the CMS-1500 (02-12) form must be used in those instances where DMAS has requested the use of the paper form. The following instructions have numbered items corresponding to fields on the CMS-1500 (02-12).

ELECTRONIC VISIT VERIFICATION (EVV)

DMAS no longer accepts paper claims (CMS-1500) or direct data entry (DDE) claims for agency directed personal care and respite services. EVV is the required means to submit claims except in one of the exceptions as listed below. All agency providers submitting procedure codes associated with EVV must submit electronic EDI claims in the 837-P X12 standard. Should a provider submit claims for these services on paper, or via DDE, the

claim will deny. The following link provides access to the 837 Professional Health Care Claims and Encounter Transactions Companion Guide:

https://www.dmas.virginia.gov/files/links/1157/MES_EPS_837P_Companion_Guide

Each of the following six (6) data elements must be captured for EVV:

1. The type of service(s) performed – service procedure code
2. The individual receiving the services – member's Medicaid ID
3. The date of the service
4. The location of the service delivery – This is a physical address, city, state and zip code and not geographical coordinates. Two (2) locations will be captured in the event that the beginning location is not the same as the ending location.
5. The individual providing the service – the aides first and last name, and a unique ID of the aide, which is generally an employee ID associated with the agency submitting the claim.
6. The time the service began and ended – this will be in the military format

If any of these fields are not completed or incomplete on the 837P, the claim will deny with one or more of the following edits:

1. Beginning Location Address, City, State, Zip Code must be present
2. Ending Location Address, City, State and Zip Code must be present
3. Attendant/Aides Last Name, First Name, and unique ID must be present
4. Time Service Begin – must be in valid 24hour military time format
5. Time Service Ended – must be valid 24-hour military time format and after the begin time, either later in the same day, or the next day.

EVV will not be required for services in Department of Behavioral Health and Developmental Services (DBHDS) licensed facilities, such as a group home, sponsored residential home, supervised living, supported living or similar licensed facility, the REACH Program, or in a school setting. These agency providers must use a modifier of UB in association with the agency directed service procedure code when submitting their claim.

Providers employing live-in caregivers are no longer required to submit EVV data for claims in which a live-in aide provided care. Agency providers must use the modifier UB in association with the procedure code to submit these claims. This modifier will notify DMAS that the claim is exempt from EVV requirements.

RATES OF REIMBURSEMENT FOR AGENCY-DIRECTED PERSONAL CARE SERVICES

To comply with federal and state mandates, a ceiling for the cost of personal care services has been calculated for regions of the state and must be applied uniformly on a statewide basis, according to the geographic location of the member. The fee for personal care services is an hourly fee that reimburses for authorized personal care services. This fee must cover all expenses associated with the delivery of personal care services, including nursing visits. The hourly reimbursement rate is considered by DMAS as payment in full for all administrative overhead and other administrative costs that the provider incurs. For reimbursement rates for northern Virginia and rest of the state localities, see the DMAS website at www.dmas.virginia.gov.

The amount of personal care services required by each member shall be determined by the service authorization contractor. Once authorization is approved and the services are provided, the maximum number of personal care hours, which can be billed, is the amount on the provider's approved Plan of Care.

Only whole hours can be billed. If an extra 30 or more minutes of care are provided over the course of a calendar month, the next highest hour can be billed. If less than 30 extra minutes of care are provided over the course of a calendar month, the next lower number of hours must be billed. Providers may bill for services more than one time each month per member. However, the rounding up of hours is for the total monthly hours and not each time the provider bills DMAS.

RATES OF REIMBURSEMENT FOR AGENCY-DIRECTED RESPITE CARE SERVICES

To comply with federal and state mandates, a ceiling for the cost of respite care services has been calculated for regions of the state and must be applied uniformly on a statewide basis according to the geographic location of the member. The unit of service for respite care will be defined by the number of hours of service which are provided. For reimbursement rates for northern Virginia and rest of the state localities, see the DMAS website at www.dmas.virginia.gov.

The reimbursement must cover all expenses associated with the delivery of respite care services.

The amount of personal care services required by each member shall be determined by the Screening Team and the pre-authorization contractor. This authorization for units of service will establish the maximum number of units and the allowable payment for the service. The maximum amount of respite care service hours allowed in the waiver per individual per State Fiscal Year (SFY) is 480 hours.

Only whole hours can be billed. If an extra 30 or more minutes of care are provided over the course of a calendar month, the next highest hour can be billed. If less than 30 extra minutes of care are provided, the next lower number of hours must be billed. Providers may bill for services more than one time each month per member. However, the rounding up of hours is for the total monthly hours and not each time the provider bills DMAS.

RATES OF REIMBURSEMENT FOR PRIVATE DUTY NURSING (PDN) SERVICES

To comply with federal and state mandates, a ceiling for the cost of PDN services has been calculated for regions of the state and must be applied uniformly on a statewide basis, according to the geographic location of the member. The fee for PDN services is an hourly fee that reimburses for authorized PDN services. This fee must cover all expenses associated with the delivery of PDN services, including nursing visits. The hourly reimbursement rate is considered by DMAS as payment in full for all administrative overhead and other administrative costs that the provider incurs. For reimbursement rates for northern Virginia and rest of the state localities, see the DMAS website at www.dmas.virginia.gov.

The amount of PDN services required by each member shall be determined by the service authorization contractor. Once authorization is approved and the services are provided, the maximum number of PDN, which can be billed, is the amount on the provider's approved Plan of Care. The maximum amount of PDN services hours allowed in the waiver for an individual is 112 hours per week.

Only whole hours can be billed. If an extra 30 or more minutes of care are provided over the course of a calendar month, the next highest hour can be billed. If less than 30 extra minutes of care are provided over the course of a calendar month, the next lower number of hours must be billed. Providers may bill for services more than one time each month per member. However, the rounding up of hours is for the total monthly hours and not each time the provider bills DMAS.

RATES OF REIMBURSEMENT FOR ADULT DAY HEALTH CARE (ADHC) SERVICES

To comply with federal and state mandates, a ceiling for the cost of Adult Day Health Care (ADHC) services has been calculated for regions of the state and must be applied uniformly on a statewide basis, according to geographical locality. The fee for ADHC services is a per-diem fee. A day is defined as attendance at the ADHC Center for six hours or more. For reimbursement rates for northern Virginia and rest of the state localities, see the DMAS website at www.dmas.virginia.gov.

This fee must cover all expenses associated with the delivery of services for the time the member is attending an ADHC Center. The per-diem reimbursement rate is considered by DMAS as payment in full for all administrative overhead and other administrative costs that the provider incurs.

If a member attends the ADHC Center for less than six hours on any given day, it is considered a half day of service. At the end of the month, the half days of service may be added and rounded to the nearest whole day of service. Providers may bill for services more than one time each month per member. However, the rounding up of hours is for the total monthly hours and not each time the provider bills DMAS.

Any ADHC Center which is able to provide members with transportation routinely to and from the center can be reimbursed by DMAS based on a per-trip (to and from the member's residence) fee. This reimbursement for transportation must be service authorized by either the Screening Team or the service authorization contractor review staff. The per-trip reimbursement rate can be found on the DMAS web site at www.dmas.virginia.gov.

RATES OF REIMBURSEMENT FOR PERSONAL EMERGENCY RESPONSE SYSTEMS (PERS) SERVICES

The monthly rate (one unit) includes administrative costs, time, labor and supplies associated with the installation, maintenance, and monitoring of the PERS.

The one-time installation of the unit includes installation, account activation, member and caregiver instruction, and removal of equipment.

The rates of reimbursement for PERS monitoring and installation can be found on the DMAS web site at www.dmas.virginia.gov.

RATES OF REIMBURSEMENT FOR MEDICATION MONITORING SERVICES

The rates of reimbursement for medication monitoring installation, monthly monitoring, and the bimonthly (twice per month) rate of reimbursement for PERS nursing visits to fill the medication monitoring unit can be found on the DMAS website at www.dmas.virginia.gov.

The one-time installation of the unit includes installation, account activation, member and caregiver instruction, and removal of equipment.

RATES OF REIMBURSEMENT FOR SERVICES FACILITATION SERVICES

The reimbursement for service facilitation services varies according to the type of services provided to the member. The fees must cover all expenses associated with the delivery of service facilitation services, including nursing visits. The reimbursement rates are considered by the Department of Medical Assistance Services (DMAS) as payment in full for all administrative overhead and other administrative costs that the provider incurs. Service facilitation reimbursement rates can be found on the DMAS website at www.dmas.virginia.gov.

RATES OF REIMBURSEMENT FOR CONSUMER-DIRECTED (CD) PERSONAL CARE AND RESPITE CARE SERVICES

The reimbursement rates for consumer-directed (CD) personal care services and respite care services can be found on the DMAS web site at www.dmas.virginia.gov. CD personal care and respite care services are reimbursed in 15 minute increments.

PATIENT PAY AMOUNT AND COLLECTION

This form is used by a local Department of Social Services (DSS) and CCC Plus Waiver services provider to exchange information with respect to:

- The responsibility of an eligible member to make payment toward the cost of care;
- The admission or discharge of the member or death of the member; and
- Other information known to the provider that might involve a change in eligibility or patient pay responsibility.

The form shall be prepared by the provider to request a Medicaid number, eligibility determination, or confirmation of the patient pay amount or to notify the local DSS of changes in the member's circumstances. A new form must be prepared by the local DSS at the time of each re-determination of eligibility and whenever there is any change in the member's circumstances that results in a change in the amount of the patient pay.

DISPOSITION OF COPIES

The provider should initiate the form upon receiving a referral from the Hospital or Community Screening Team in order to notify the local DSS that he or she has admitted the member to services and provided the begin date of service. Upon determination of eligibility, the DMAS-225 form will be returned to the provider with the following information:

- Whether the member does or does not have financial responsibility toward the cost of care;
- The amount and sources of finances; and
- The date on which the patient pay responsibility begins.

There must be a completed DMAS-225 form in the member's file prior to billing DMAS. The provider with the most authorized hours is responsible for the DMAS-225 form. The provider with the most authorized hours of service per month is considered the primary service provider (PSP). Providers involved in the member's care must coordinate the DMAS-225 activities. For CD services, the Services Facilitator must also provide a copy of the DMAS-225 form to the Fiscal Agent. If there is a change in the patient pay amount for members receiving CD services, the CD Services Facilitator must send a copy of the revised DMAS-225 to the pre-authorization contractor and the Fiscal Agent.

The patient pay amount is the member's contribution toward his or her care received in a calendar month. If the amount of services received by a member in a calendar month is equal to or less than such member's patient pay amount, only the amount for the services rendered should be collected from the member, and DMAS should not be billed for that month. If the amount of services rendered is greater than the amount of patient pay, an invoice should be submitted showing the total allowable charges and the patient pay amount. The provider will be reimbursed by DMAS for the total allowable charges less the patient pay amount. For consumer-directed services, if the amount of services rendered is greater than the amount of the patient pay, the Fiscal Agent will subtract the patient pay amount from the CD attendant's payroll. The member is responsible for paying the employee the patient pay directly.

The patient pay amount is that amount of a Medicaid member's income that must be contributed to the cost of his or her care. The amount of patient pay is determined by the DSS based on the member's income and medically related deductions. It is the responsibility of the DSS to notify the member and the provider of any change in the patient pay amount. Patient pay **estimates** are obtained by the Screening Team to inform the member of the estimated patient pay amount and should be included on the DMAS-97 form. The provider should immediately initiate a DMAS- 225 form and send it to the local DSS upon beginning services so that the DSS can notify the provider of the actual patient pay amounts. The provider should compare these actual figures against the Screening Team's estimates. If the two do not correspond, the provider should notify the member and the Fiscal Agent (if applicable) of the patient pay amount on the DMAS-225 form and bill DMAS accordingly.

Upon receipt of a referral in which a patient pay amount for services is indicated, the primary care provider (PCP) should verify that the member understands and agrees to his or her patient pay obligations. Medicaid suggests that this verification be in the form

of a signed statement of obligation and that the patient pay amount be collected at the beginning of the month. It is the responsibility of the provider to collect the patient pay amount. For consumer-directed services, it is not the responsibility of the Service Facilitator to collect the member's patient pay amount. It is the member's responsibility to ensure the patient pay amount is given to the consumer-directed attendant to cover the amount of personal care services authorized. DMAS will not reimburse a provider for any portion of the patient pay amount.

In those instances where the patient pay responsibility usually exceeds the amount of services authorized for one provider, the provider will divide the amount of patient pay so that the statement obligation signed by the participant indicates the amount the participant will pay monthly to one provider and the amount the participant will pay monthly to a second service provider. The primary service provider must provide a copy of this statement to the secondary service.

For additional information and examples of patient pay collection when a member is receiving more than one waiver service, see Chapter IV's Patient Pay Amount section.

In the event that the member does not pay the patient pay amount in a timely manner, the provider must make a reasonable effort to notify the member/family of the situation in an effort to collect the required amount. A reasonable effort shall be defined as three written notifications to the member.

The member's failure to pay the patient pay amount may affect his or her Medicaid eligibility. Therefore, if the provider is unable to collect the patient pay amount, the provider must also notify the local DSS eligibility worker having case responsibility for the member. For consumer-directed services, if the Service Facilitator becomes aware that the member is not paying the patient pay amount to the consumer-directed attendant, the Service Facilitator must also notify the local DSS eligibility worker having case responsibility for the member. This notification must be in writing and a copy retained in the member's record by the provider. It is the responsibility of the member to pay the patient pay to the provider or, if applicable, to the consumer-directed attendant. The provider or the consumer-directed attendant, if applicable, has the right to decide whether to continue service delivery to a member who neglects to pay his or her patient pay amount. DMAS will not reimburse the provider or the consumer-directed attendant, if applicable, for the patient pay amount that is not paid by the member.

If, after a reasonable effort to collect the patient pay amount, the provider decides to discontinue services, the provider must give the member/family ten days' written notice of discontinuance of services plus three days for mailing of any decision. Such notice must include the reason for discontinuance and the effective date. A copy of this notification must be sent to the local DSS eligibility worker. A copy of all correspondence must be retained in the member's record with the provider and a copy sent to the pre-authorization contractor.

SPECIAL NOTE: TAXONOMY

With the implementation of the National Provider Identifier (NPI), it will become necessary in some cases to include a taxonomy code on claims submitted to DMAS for all of our programs: Medicaid, FAMIS, and SLH. Prior to using the NPI, DMAS assigned a unique number to a provider for each of the service types performed. In regard to the NPI, a provider may only have one NPI and bill for more than one service type with that number. Since claims are adjudicated and paid based on the service type, the DMAS system must determine which service type the provider intended to be assigned to a particular claim. If the NPI can represent more than one service type, a taxonomy code must be sent so the appropriate service type can be assigned.
