Update to the Enrollment of Afghan Immigrants

The purpose of this bulletin is to notify providers of an update to the Medicaid eligibility guidance for Afghan immigrants. Federal legislation has extended qualified immigration status for immediate Medicaid/CHIP eligibility to all Humanitarian Parolees, provided they meet all other factors.

Eligible Humanitarian Parolees are those who either:

- Were paroled into the United States between July 31, 2021, and September 30, 2022
- Are a qualifying relative of someone who received parole in that period, even if they receive parole after Sept 30, 2022.

A qualifying relative is a spouse, parent, or child of a parolee, or a legal guardian of a parolee who is determined to be an unaccompanied child.

This aligns eligibility among the three main immigration statuses assigned to Afghan refugees: Special Immigrant Visa (SIV), Special Immigrant Parolee (SIP), and Humanitarian Parolee. The exception to eligibility applies to non-pregnant adults that arrived prior to July 31, 2021. They are subject to the five year bar, but are eligible for payment of emergency services and Marketplace coverage.

For those individuals who attest to meeting all eligibility factors, enrollment in Hospital

Presumptive Eligibility (HPE) is typically a faster path to temporary enrollment, however, full

Medicaid applications are encouraged.

Please see the attached summary chart on the next page for updated eligibility information for the three main immigration statuses applied to the majority of Afghan evacuees, and their applicable eligibility.

MEDICAID BULLETIN

* HPE is time-limited enrollment that does not provide coverage for costs associated with labor and delivery.

Applications for Medicaid may be filed online (commonhelp.virginia.gov), by phone (833-5CALLVA), or by completing a paper application and returning it to the local Department of Social Services where the individual resides. **Applicants must meet all eligibility factors prior to enrollment; this chart only refers to meeting an eligible immigration status.

*** Individuals only meet eligibility for RMA if found not eligible for full-coverage (for example, if the individual has income in excess of the Medicaid or CHIP (FAMIS) income limits. RMA is limited to the first eight months of residency.

Qualifying relatives can be paroled later than September 30, 2022.
