Managed care plans to assist enrollees in completing the Medicaid renewal process

The purpose of this bulletin is to notify providers that CMS has approved a request from DMAS to allow managed care organizations (MCOs) to assist enrollees in completing the Medicaid renewal process, including completing certain parts of the renewal forms, to help reduce the number of procedural terminations during the state's Return to Normal Operations period.

This flexibility is in effect immediately and will be in effect through February 28, 2024.

MCOs and MCO employees must adhere to guidelines when performing this work, including:

- Complete the Sign Up Now (SUN) renewal training prior to assisting any individual with a paper renewal packet or CommonHelp redetermination process.
- Only assist with renewals that have been initiated by the state.
- Not assisting with any application fields associated with managed care plan selection.
- Not acting as the enrollee's authorized representative.
- Not performing activities that must be provided by an enrollment broker, including choice counseling.
- Avoid all forms of marketing and potential conflicts of interest and protect managed care enrollees' confidentiality.
- Tracking and reporting on all activities.

Managed Care Programs

Medallion 4.0, Commonwealth Coordinated Care Plus (CCC Plus), and Program of All-Inclusive Care for the Elderly (PACE). In order to be reimbursed for services provided to a managed care enrolled individual, providers must follow their respective contract with the managed care plan/PACE provider. The managed care plan may utilize different guidelines than those described for Medicaid fee-for-service individuals.
