MEDICAID BULLETIN

Last Updated: 09/24/2026

Changes to Gender Dysphoria Coverage

The purpose of this bulletin is to notify providers that, in accordance with a new federal final rule for dates of service on or after October 13, 2026, DMAS will no longer cover gender dysphoria services for Medicaid members under the age of 18, and CHIP members under the age of 19. Under the final rule, federal Medicaid and CHIP funding will be available for a tapering-off period of up to six months from the effective date of the final rule for youth who are receiving medications related to gender affirming care as of October 13, 2026. Service authorizations for the tapering of affected medications must be obtained by contacting the appropriate call center corresponding with the member's current enrollment. Contact numbers can be found at the end of this bulletin. The rule does not affect coverage of mental health services, which will remain in place without changes.

To avoid disruption to claims payment through FFS and the MCOs providers must periodically check the DMAS provider portal, also known as the Provider Services Solution (PRSS), to ensure that the provider's enrollment, contact information, and license information is up to date, for all of the provider's respective service locations. Under federal rules, MCOs and DMAS are prohibited from paying claims to network providers who are not enrolled in PRSS. Additional information is provided on the MCO Provider Network Resources webpage and includes links to resources, tutorials and contact information to reach Gainwell with any provider enrollment or revalidation related questions. Dental providers should continue to enroll directly through the DMAS Dental Benefits Administrator, DentaQuest.

Managed Care Programs

Cardinal Care Managed Care and Program of All-Inclusive Care for the Elderly (PACE). In order to be reimbursed for services provided to a managed care enrolled individual, providers must follow their respective contract with the managed care plan/PACE provider. The managed care plan may utilize different guidelines than those described for Medicaid fee-for-service individuals.
