

Last Updated: 07/13/2022

Coverage of Single-Dose COVID-19 Vaccine Administration

The purpose of this memorandum is to inform providers:

- That the Virginia Department of Medical Assistance Services (DMAS) fee-for-service (FFS) and all contracted managed care plans will cover one (1) new COVID-19 vaccine product and one (1) new COVID-19 vaccine administration code for all full benefit Medicaid and FAMIS populations
- Of pharmacy procedures for the new COVID-19 vaccine product and administration

Further contact information is included at the bottom of this document.

The codes below will be covered by DMAS FFS and all DMAS Managed Care Organizations (MCOs) pending the issuance of an Emergency Use Authorization (EUA) by the Food and Drug Administration (FDA). The effective date of service will be the date of issuance of an EUA, and no earlier than February 26, 2021.

CPT code	Description	Reimbursement rate
91303	SARSCOV2 VAC AD26 .5ML Janssen Covid-19 Vaccine	\$0.01
0031A	ADM SARSCOV2 VAC AD26 .5ML Janssen Covid-19 Vaccine Admin.	\$28.39

The Centers for Medicare and Medicaid Services (CMS) anticipates that, at this time, providers will not incur a cost for vaccine products (CPT 91303). Providers should not bill for a vaccine product if they received it for free.

For questions on coverage for members enrolled in a managed care organization, refer to the contact information listed at the end of this document.

Pharmacy procedure for COVID-19 vaccine

Please refer to the Medicaid Memo “Pharmacy Procedure For COVID-19 Vaccine” for further information on pharmacy procedures for COVID-19 vaccine products and administration. Note that for single dose vaccines, submission clarification codes are not required.

Members (or providers on behalf of members) who require transportation assistance for their vaccinations, can schedule transportation by calling the appropriate number on this contact list:
