Updates to Comprehensive Crisis and Transition Services (Appendix G) of the Mental Health Services Manual

The purpose of this memorandum is to notify providers of changes to the Comprehensive Crisis and Transition Services (Appendix G) of the Mental Health Services Manual, previously known as the Community Mental Health Services (CMHRS) Manual.

Appendix G contains level of care guidelines, medical necessity criteria, provider participation requirements, service authorization and billing guidance for Mobile Crisis Response, Community Stabilization, 23-Hour Crisis Stabilization and Residential Crisis Stabilization Unit (RCSU) services. In addition to clarifications and a reorganization of existing language, the following changes were made:

- The name and organization of the Appendix was updated to reflect the role of Community Stabilization to serve as a transitional step down from an intensive service such as crisis and inpatient services and other levels of care when there is a gap in availability of services.
- A requirement that supervisors of Registered Peer Recovery Specialists must complete the DBHDS Peer Recovery Specialist Supervisor Training was added to each service.
- Clarifications related to consecutive registrations for Mobile Crisis Response were added.
- Added allowance for individual, group and family therapy to be provided through telemedicine in RCSUs.
- Extended deadline for implementing 24/7 nursing requirement in RCSU to 11/30/2024.
- The medical necessity criteria for Community Stabilization has been updated.
- A requirement has been added that Community Stabilization providers must be credentialed and contracted with the individual's Medicaid Managed Care Organization (MCO) for individuals enrolled in Medicaid managed care or the Fee for Service (FFS) contractor for individuals in FFS.
