MEDICAID MEMO

Last Updated: 01/26/2026

Update to Emergency Medicaid Supplement

The purpose of this memo is to notify providers of updates to the Emergency Medicaid Supplement. Updates address organ transplants, routine prenatal and postpartum care, as well as sterilization procedure coverage.

For non-resident aliens (NRAs), treatment for a medical emergency that results in sterility could be covered, provided there is an emergency room visit immediately preceding the treatment, and there is a service authorization for an inpatient admission if needed. Providers are to also review information in the Hospital Manual and the Practitioner Manual for additional NRA information.

To avoid disruption to claims payment through FFS and the MCOs providers must periodically check the DMAS provider portal, also known as the Provider Services Solution (PRSS), to ensure that the provider's enrollment, contact information, and license information is up to date, for all of the provider's respective service locations. Under federal rules, MCOs and DMAS are prohibited from paying claims to network providers who are not enrolled in PRSS. Additional information is provided on the MCO Provider Network Resources webpage and includes links to resources, tutorials and contact information to reach Gainwell with any provider enrollment or revalidation related questions. Dental providers should continue to enroll directly through the DMAS Dental Benefits Administrator, DentaQuest.

Managed Care Programs
Cardinal Care Managed Care and Program of All-Inclusive Care for the Elderly (PACE). In order to be reimbursed for services provided to a managed care enrolled individual, providers must follow their respective contract with the managed care plan/PACE provider. The managed care plan may utilize different guidelines than those described for Medicaid fee-for-service individuals.
